Ultra Stack and Hang Bins

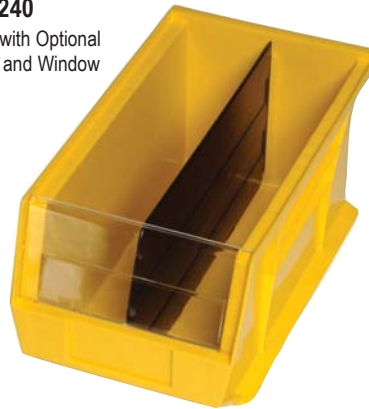

1. Full width hanger supports bin when hanging from louvered panels or rails
2. Reinforced rib design adds strength and prevents spreading
3. Extra-wide stacking ledge for secure stacking
4. Large front label slot allows larger bar code scanning and content identification
5. Anti-slide stop prevents stacked bins from shifting forward
6. Optional dividers increase storage options
7. Optional windows maximize storage capacity, prevent spillage and protects parts from dust and dirt

PERFORMANCE FEATURES AT A GLANCE:

- Available in 20 sizes
- Standard colors: Blue, Yellow, Red, Green, Ivory and Black (additional colors available on request, subject to upcharge and minimum runs)
- Bins are made from heavy duty, virgin, high density  approved polypropylene
- Large multiple label slots provide easy label insertion and parts identification
- Extra wide stacking ledge assures stability for high stacking
- Reinforced design adds strength and prevents spreading
- Will not rust or corrode, unaffected by weak acids and alkalis, and are waterproof
- Autoclavable up to 250°F
- Interchangeable with other manufactured brands of bins

Ultra Stack and Hang Bins

Ultra Stack and Hang Bins

Organize your inventory with strong injection molded plastic bins. Front, back and side grips for easy handling. Built in rear hanger allows bins to hang from louvered panels or rails. Optional clear plastic window increases bin capacity and provides quick view of bin contents. Dividers maximize flexibility and keep contents organized. Wide stacking ledge and anti-slide lock keep stacked bins steady and prevent forward shifting. Waterproof bins resist rust and corrosion. Large molded front label slots for ID labels. Autoclavable up to 250°F and resistant to extreme cold. Available in Blue, Yellow, Red, Green, Ivory and Black.

Louvered Panels

Ultra Hanging Systems

Quantum Ultra bins will hang on louvered panels or rail hanging systems in a wide range of configurations designed to meet all application needs. Hanging Systems are either: Wall Mounted, Table Top, Free Standing or Mobile Units. Use the system best suited to your needs with your choice of Ultra Bins. Systems are formed from heavy duty 16 gauge cold rolled steel and have a Gray baked-enamel finish which ensures years of heavy duty use. Louvered panels may be mounted on any suitable surface including walls, benches, inside service trucks and cabinets or on carts. Fasten securely to assure adequate load bearing. Louvered Systems are available as Bench Units (in 4 sizes), Free Standing Single and Double Sided Units and Mobile Units.

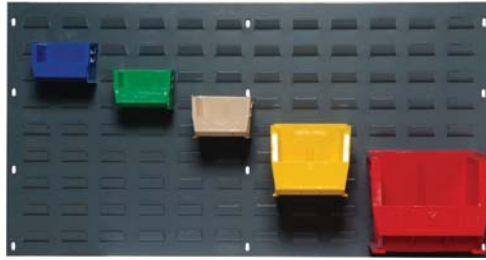

QLP-1819

GIANT Hopper Bins

QUS255

Giant Hopper Bins

Extra large, high density, heavy duty open hopper stackable bins are a perfect solution for storing and organizing large parts. Bins have a stack capacity of up to 100 lbs. and can stack up to 6 bins high. Injection molded from high density polypropylene, bins are waterproof, will not rust or corrode and can be cleaned easily. Molded-in divider slots and optional dividers keep parts separated and organized. Optional clear window increases bin capacity. Permanent label holder allows for easy part identification. Available in Blue, Yellow, Red, Green, Ivory and Black.

PERFORMANCE FEATURES AT A GLANCE:

- Bins are made from heavy duty, virgin, high density FDA approved polypropylene
- Large multiple label slots provide easy label insertion and part identification
- Extra wide stacking ledge assures stability for high stacking
- Reinforced design adds strength and prevents spreading
- Autoclavable up to 250° F
- Interchangeable with other manufactured brands of bins

GIANT Stack Containers

Giant Stack Containers

Multipurpose, wide open hopper front provides easy access for large part storage. Ideal for multiple applications in recycling, storing parts, tools and warehouse items. This bin will stack up to 6 bins high creating a sturdy, tall storage system. Injection molded from high density polyethylene, easy to clean, resists rust and corrosion and impervious to most chemicals. Large label holder allows for quick identification. Optional clear window increases storage capacity and allows for inspection of parts. Six 1/4" drill hole pattern on bottom of bin allow for easy hole insertion for drainage. QGH 700 is available in Gray, Blue, Red, Ivory and Black. QGH 600 and QGH 800 are available in Gray, Blue and Red.

PERFORMANCE FEATURES AT A GLANCE:

- Extra thick side walls with reinforced rib designed for strength, allowing for 100 lb. stack capacity per bin
- Large grip side handles
- Stacks 6 bins high
- Six 1/4" drill hole pattern on bottom of bin allows for easy hole insertion for drainage

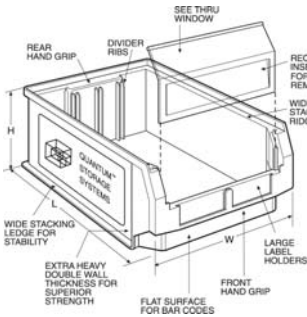

Giant Open Hopper MAGNUM Bins

MAGNUM

MAGNUM Bins -- The Toughest Bins in the Business

Heavy duty, extra strong injection molded, high density polyethylene bins are ideal for transportation and storage of large and heavy parts. Open hopper front allows immediate access and visibility. Ribbed reinforced walls ensure extra strength. Double wall thickness with preformed lip allows bin to interlock and provides up to 150 lbs. stack capacity. Transport these bins easily with rear molded handle. Molded in label slot. Impervious to most solvents, corrosion, rust and rot resistant. Resists temperatures from -40°F to 250°F. Optional window maximizes storage and prevents spillage. Available in Blue, Yellow, Green, Red and Black.

QuickPick Bins

Stack 'em

Double reinforced sides add strength and prevents bin from spreading when stacked

Nest 'em

Bins nest when empty to save space

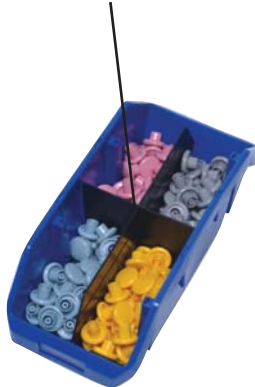

Cross Stack 'em

Built-in stacking ledges allow secure stacking and cross stacking

The most versatile bin in the industry!

Create up to 4 compartments

Optional dividers may be used front to back, side to side or both at the same time, dividing the bin into four sections.

QuickPick Bin

The most unique storage bins available.

This double open hopper bin provides front **and** back access to stored parts.

These heavy-duty, polypropylene storage bins provide an open hopper front and back, allowing double access to stored parts. Bins stack one on top of the other, both vertically and cross-wise and nest when empty for space efficiency. Optional dividers may be used front to back, side to side or both at the same time, dividing the bin into four sections. A molded in label holder on both the front and back of the bin allow for easy parts identification. Bins can be used on standard metal or wire shelving as well as on desks, bench tops or work stations. Available in 6 sizes and in 3 colors: Blue, Yellow and Red.

Conductive Ultra Stack Bins and Dividers

Protect your electronic components from typical electromagnetic interference (EMI), electrostatic or induced fields with these conductive polypropylene bins. The conductive material provides a barrier which these fields cannot penetrate and prevents the build-up of electrostatic charge. Bins are permanently conductive and are unaffected by washing with normal cleaners. Molded from a carbon filled copolymer polypropylene material with an electrostatic decay rate at less than 0.1 second that meets military specification Mil-B-81075B. Its surface resistivity is less than 10^5 Ohms-per square. Easy access to stored items with hopper front bin and label holder provides fast identification. Reinforced side walls and wide ledge allow high stacking on benches or shelving. Be sure all units are properly grounded according to your use. Color is Black.

Conductive Shelf Bins

Protect your electronic components from typical electromagnetic interference (EMI), electrostatic or induced fields with these molded, carbon-filled, copolymer polypropylene bins. Surface resistivity is less than 10^5 Ohms-per square. Easy access to stored items with hopper front bin and label holder provides fast identification. The conductive material provides a barrier which these fields cannot penetrate and prevents the build-up of electrostatic charge. Bins are permanently conductive and are unaffected by washing with normal cleaners. Be sure all units are properly grounded according to your use. Color is Black.

Conductive Dividable Grid Containers

Protect your electronic components from typical electromagnetic interference (EMI), electrostatic or induced fields with these molded, carbon-filled, copolymer polypropylene dividable grid containers. Surface resistivity is less than 10^5 Ohms-per square. The conductive material provides a barrier which these fields cannot penetrate and prevents the build-up of electrostatic charge. Containers, dividers and covers are permanently conductive and are unaffected by washing with normal cleaners. Containers have a load capacity of 100 lbs. Dividers available to customize your box into compartments at 1-1/8" intervals and snap covers protect contents from dust or damage. Be sure all units are properly grounded according to your use. Color is Black.

Stackers -- Heavy Duty Straight Wall Stacking Container

Heavy duty, straight wall containers maximize your space when used for shipping, storage or work-in progress. Greater strength and durability provided by reinforced corners allowing this strong container to hold the heaviest of parts! Containers are injection molded from high-density polyethylene. Straight wall design allows for modular stacking of all sizes on standard pallet. Hand grips on two sides make the container easy to handle and carry. Up to 150 lb. stack capacity. Available in Gray.

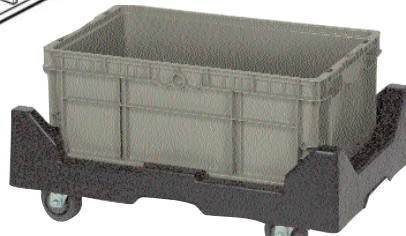

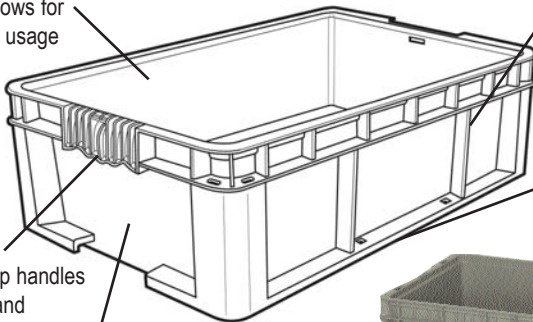

Smooth, straight wall interior allows for maximum usage

Reinforced external ribbing and stacking rims provide maximum stacking strength up to 150 lbs.

Textured bottom ensures non-slip, easy conveyable surface

Finger grip handles for easy and comfortable grip

Flat surface ideal for labeling or bar coding parts

Cross Stack Tubs and QuanTubs

Cross Stack Tub

USDA/FDA approved tote nests when empty or can be turned 90° to cross stack. Easy access to items when stacked. Ideal for production, assembly and order picking. Injection molded from high impact polyethylene which will not crack, rust or corrode. Easy to clean. Built in handles and bottom grooves makes handling easy. Holds up to 100 lbs. Six 1/4" drill hole pattern on bottom of bin allow for easy hole insertion for drainage. Available in Gray, Blue and White. 6 per carton.

Tub Racks

All-welded aluminum Tub Rack transports and stores all types of product. Carts come complete and are shipped assembled with bins. Runners allow bins to slide in and out from both sides. Bins available in Gray, Blue and White.

LID2516-8

Optional lid keeps stored items dust free. Tubs can still stack and cross stack with lids in place!

snh010

3" x 5" Clear Label Holder securely attaches to totes and allows for easy part identification. Fits all tub sizes.

Attached Top Containers

Heavy Duty Attached Top Containers

Strong, reliable and reusable totes are ideal for storage, distribution and order picking. Attached tops are permanently attached with steel hinges that interlock for stacking strength and security. Stack for maximized storage and nest when empty. Textured, non-slip bottom ensures smooth conveying. Ergonomically designed handles allow for easy lifting. Recessed lids ensure maximum load stability. Padlock eye provides security option allowing lids to be fastened and/or locked. Molded from high density, FDA approved polyethylene. Lids close securely to protect parts from dust or damage. Available in Gray.
