LOOK AT SHELVING FROM A DIFFERENT ANGLE

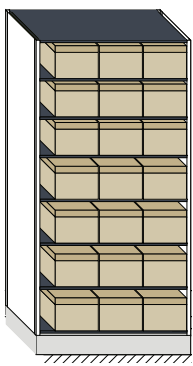

RAIL-LESS MOBILE STORAGE SYSTEM

90° TURN OF YOUR SHELVING

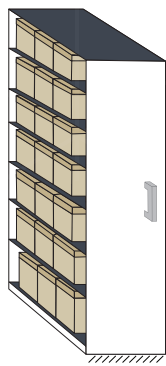

180° TURN IN THE WAY YOU WORK

Every work environment requires storage - a closet, a stock room, a supply room, an evidence room, even a warehouse - but storage isn't what you care about. What you care about is what you're storing. Chances are, those items are essential to achieving the goals of your organization, and to achieving them more efficiently, more easily, and without spending a fortune.

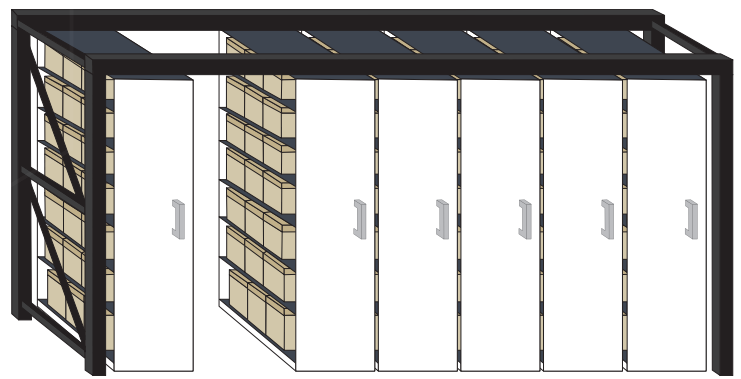

By suspending shelves on an overhead track, the aisles of the system compact to greatly increase the capacity of your storage without expanding the footprint of your space - and without a major construction project. The rail-less design and steel construction make it durable for years of use, while the configurability makes it easy to add onto and relocate.

Picture Traditional
Static Shelving...

Spin 90 Degrees...

Add more shelving sections, now you have a **LEVPRO** system that compacts by sliding on our patent pending suspended overhead trolley and track system.

**LESS WASTED TIME:**

Shorter aisles mean you can get to what you need faster and get back to focusing on what it is you do. Plus, **LEVPRO** allows for multiple aisles to be accessed at one time, meaning you don't have to wait for someone else to retrieve their item before you go get yours.

CARE FOR YOUR ITEMS:

Organizing and protecting your items is vital to keeping them safe and usable for years to come. More capacity and a variety of accessories make finding and accessing your stored items quick and easy.

OPTIMIZE YOUR SPACE:

Make the most of every inch in your room by compacting wasted aisle space to increase storage capacity by up to 100%. **LEVPRO** units can even be installed around existing furniture, columns, or other obstacles.

FULLY RELOCATABLE:

If you're in a leased space, know you'll be moving in the foreseeable future, or sometimes rearrange rooms based on changing needs, your **LEVPRO** system can change right along with you. You can easily add onto or relocate your system without leaving behind a trace.

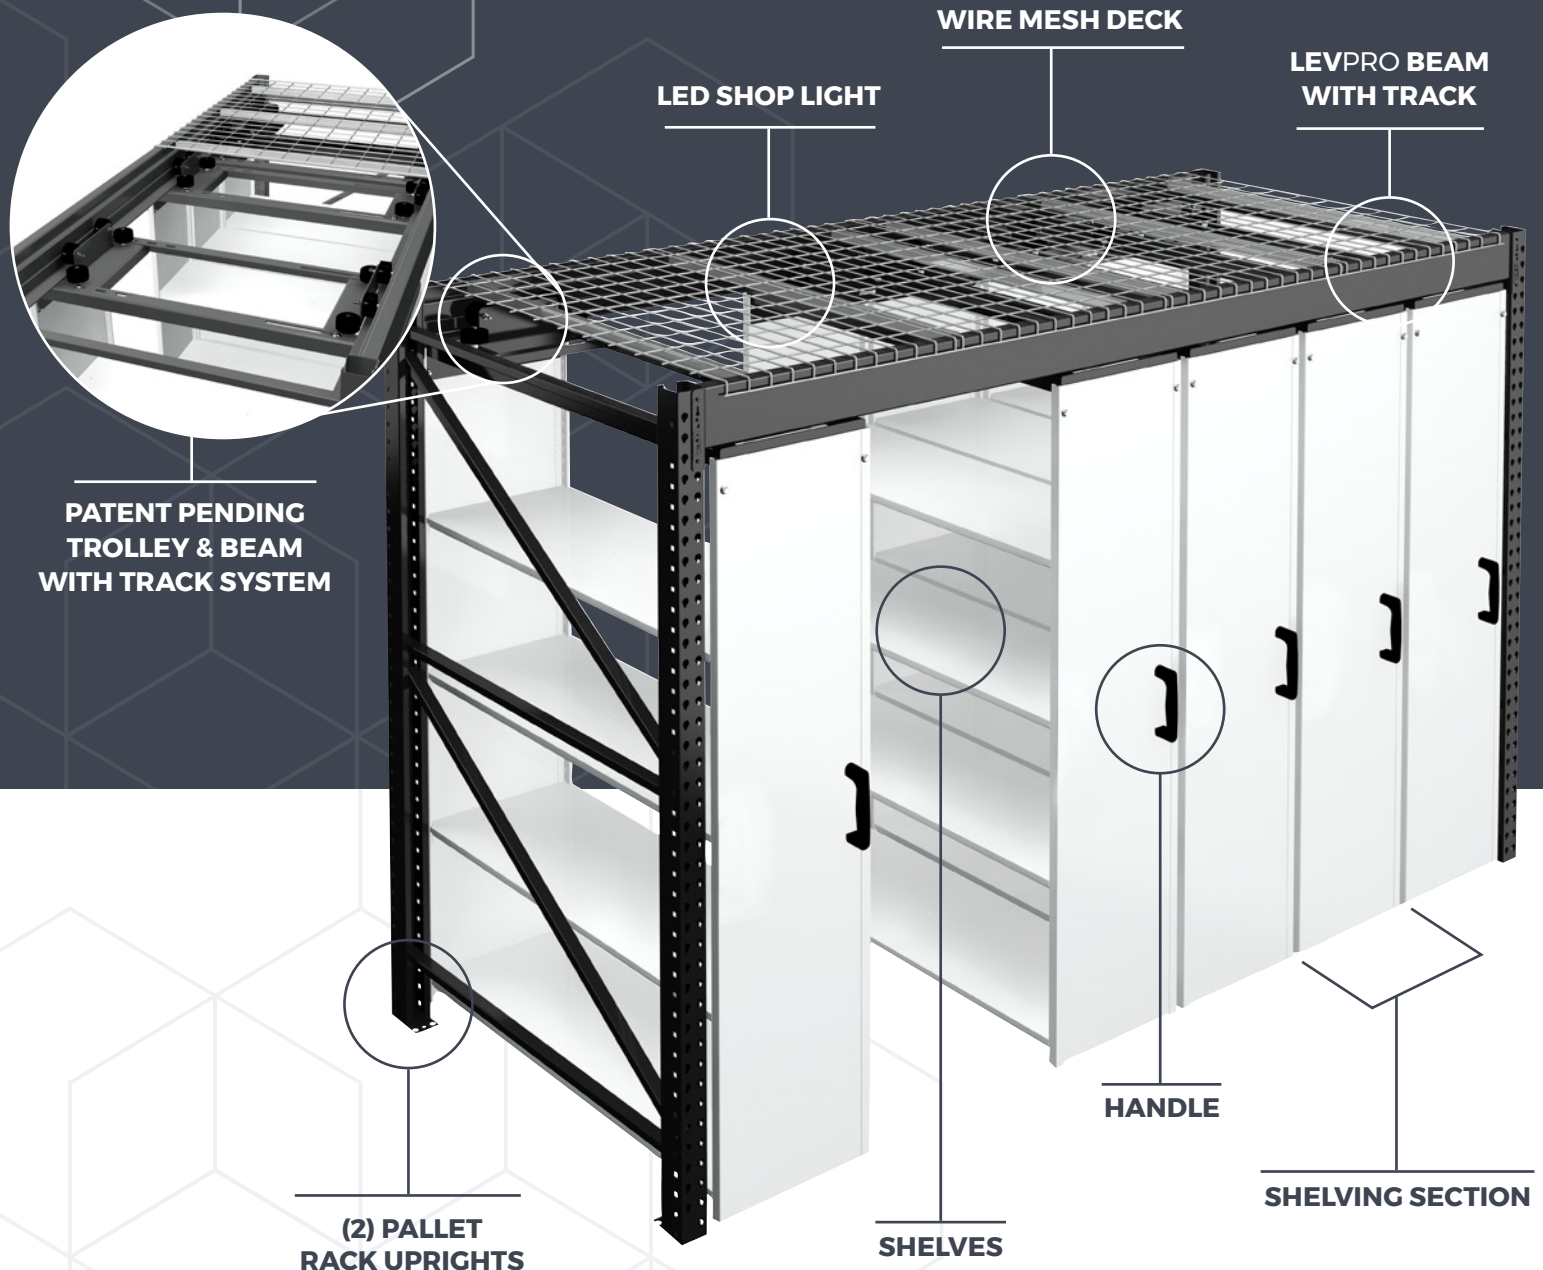

MINIMAL DISRUPTION INSTALLATION:

Install yourself or have our factory-certified local installers give you a hand. There's no need to modify existing floors or ceilings. The system is a quick installation with a few simple tools. Not interested in installing yourself? Our installers can always work around your business hours so you can continue with business as usual.

KEEP YOUR SPACE CLEANER:

Without floor rails, it's simple to clean under your **LEVPRO** - perfect for sterile environments or more rugged work environments where there's dust and debris. Plus, by compacting the aisles of your system, you further protect the items inside from outside dust and dirt.

THREE DIFFERENT STANDARD WIDTHS FOR YOUR NEEDS

COLORS

Pallet Racking available in black. Trolley, 4-post uprights, shelving and accessories available in our standard shelving powder coat colors.

LEVPRO 8

Three **standard** sizes are available in this 8' span series:

- ① 8'W x 8'H x 4'D
- ② 8'W x 7'H x 4'D
- ③ 8'W x 7'H x 3'D

Each span contains:

- (2) Pallet rack uprights
- (2) **LEVPRO** beams with track
- (2) 15" D & (2) 18" D shelving sections
 - (1) Trolley per section
 - (2) 4-Post closed uprights per section
 - (4) Shelves per section
 - (1) Handle per section
- (1) LED shop light
- (2) Wire mesh decks

*Outside dimension add 6" to width

Total system capacity of 4800 lbs. with each shelving section not to exceed 600 lbs. Shelf capacity not to exceed 150 lbs.

Pallet rack uprights must be anchored to the floor to secure the system in place. Anchor type and size will be determined by building materials, local code, or other requirements.

Three **standard** sizes are available in this 10' span series:

- ① 10'W x 8'H x 4'D
- ② 10'W x 7'H x 4'D
- ③ 10'W x 7'H x 3'D

Each span contains:

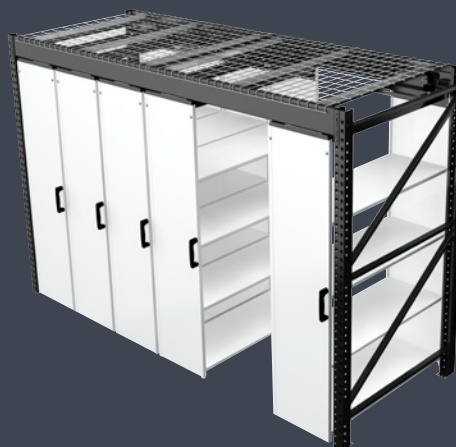

- (2) Pallet rack uprights
- (2) **LEVPRO** beams with track
- (5) 18" D shelving sections
 - (1) Trolley per section
 - (2) 4-Post closed uprights per section
 - (4) Shelves per section
 - (1) Handle per section
- (2) LED shop lights
- (2) Wire mesh decks

*Outside dimension add 6" to width

Total system capacity of 4200 lbs. with each shelving section not to exceed 600 lbs. Shelf capacity not to exceed 150 lbs.

Pallet rack uprights must be anchored to the floor to secure the system in place. Anchor type and size will be determined by building materials, local code, or other requirements.

LEVPRO 10

Three **standard** sizes are available in this 12' span series:

- ① 12'W x 8'H x 4'D
- ② 12'W x 7'H x 4'D
- ③ 12'W x 7'H x 3'D

Each span contains:

- (2) Pallet rack uprights
- (2) **LEVPRO** beams with track
- (6) 18" D shelving sections
 - (1) Trolley per section
 - (2) 4-Post closed uprights per section
 - (4) Shelves per section
 - (1) Handle per section
- (2) LED shop lights
- (3) Wire mesh decks

*Outside dimension add 6" to width

Total system capacity of 3600 lbs. with each shelving section not to exceed 600 lbs. Shelf capacity not to exceed 150 lbs.

Pallet rack uprights must be anchored to the floor to secure the system in place. Anchor type and size will be determined by building materials, local code, or other requirements.

LEVPRO 12

CUSTOMIZABLE TO FIT YOUR UNIQUE SPACE

Sometimes “standard size” doesn’t fit your needs or you want help figuring out exactly what you do need. It takes a team to successfully reconfigure a storage space. Our Spacesaver team and local distributors collaborate with end users and facility managers to ensure the system optimizes your day-to-day workflow and accommodates your future plans.

We’re here to help you through every step of the process. It all starts with a conversation about your needs and space.

CONFIGURABLE SIZES

In addition to the standard series sizes we can accommodate additional shelving widths and depths to best fit your needs.

SHELVING SECTIONS WITH TROLLEY SYSTEM			
Width (in.)	Depth (in.)	Single or Double Face	Standard Series Size
36	15	Single Face	Yes
36	18	Single Face	Yes
36	24	Double Face	No
42	15	Single Face	No
42	18	Single Face	No
42	24	Double Face	No
48	15	Single Face	Yes
48	18	Single Face	Yes
48	24	Double Face	No

EXISTING RACKING?

If you already have tear drop pallet rack uprights convert them to a **LEVPRO** system using our **LEVPRO** beams, trolley system and 4-Post Shelving. Contact us to confirm compatibility.

JUST PALLET RACKING

Need additional pallet racking with your new **LEVPRO** system. Standard beams are needed for additional overhead storage & capacity. We offer pallet racking in the following sizes:

PALLET RACKING				
Beam Lengths (ft.)	8,	9,	10,	12

PALLET RACKING	
----------------	--

Upright Heights 7, 8, 9, 10, 11, 12, 13, 14, 15, 16 (ft.)

COLORS

Pallet Racking available in black. Trolley, 4-post uprights, shelving and accessories available in our standard shelving powder coat colors.

NOTE: Pallet rack uprights must be anchored to the floor to secure the system in place. Anchor type and size will be determined by building materials, local code or other requirements.

ORGANIZATION FROM EVERY ANGLE— PICK YOUR ACCESSORIES

Compacting your shelving is half the battle when it comes to creating more storage space—but having an organized way to store each of your items can help you truly make the most of your system. Choose from a variety of versatile accessories that not only make it quick and easy to store and retrieve your items, but also help you store more items and avoid wasting space.

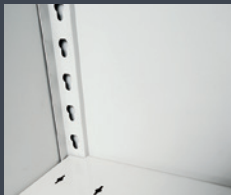

UNIVERSAL OR PLAIN SHELF

Universal shelf offers a patented design to allow for file dividers, bin dividers, rods, and more.

BACK PANEL

Covers the back of the whole shelving section from top to bottom.

BIN DIVIDER

Compartmentalizes the storage of three-dimensional objects and other media.

DOUBLE-FACE THROUGH SHELF WITH CENTERSTOP

Helps separate and contain media being stored.

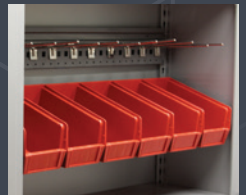

BACKSTOP

Support bar to assist with placing dividers and prevent items from falling off open shelves.

MODULAR SUPPORT RAIL

(Standard or Heavy duty) Supports hanging bins, peg board hooks, slat wall accessories and a number of UWR components.

FILE DIVIDERS

Metal dividers easily slide into backstop to organize items on the shelf.

WIRE DIVIDERS

Provides open-shelf access to all file folders contained in suspended compartments.

BIN FRONTS

Available in acrylic (shown) or steel. Keep items from falling off open shelves.

HANGER RAIL

Spans the width of the shelving and has three notches to allow for flexibility in positioning rail(s) depending on the size of items being stored.

LABEL HOLDER

Adhesive label holders in multiple lengths help you keep items organized.

SUPPORT RAIL DIVIDER

Used in tandem with 4-Post/UWR Support Rail. Divider keeps bulky and heavy items in an upright, stable position.

90° TURN OF YOUR SHELVING 180° TURN IN THE WAY YOU WORK WE'RE HERE TO HELP

We care about what you are storing and by helping with your stuff we are also helping you achieve the goals of your organization, and achieve them more efficiently, more easily, and without spending a fortune. We're always looking for new ways to help you achieve those goals, which is why we're partnering with LevRack to introduce **LEVPRO** by Spacesaver. For you, this partnership means innovative new solutions to your evolving needs, backed by our experienced manufacturing team, design specialists, and nationwide network of local distributors.

Our extensive network of authorized distributors specializes in understanding your storage needs. Not only are our consultants trained in making the best use of any available space, they're also experts in ADA requirements, HVAC systems, fire codes, seismic regulations, and other directives.

DESIGN ASSISTANCE

To ensure that your project is done right, your Spacesaver design consultant is available to assist you at every step along the way, from discussing concepts in the pre-design phase all the way through to final design, installation, and maintenance. He or she will gain a thorough understanding of your facility's needs and serve as a liaison between end users and the architects, designers, and contractors working on your project—as well as with our engineering team and manufacturing facility in Wisconsin, USA. Our commitment to customer service ensures a truly integrated and effective storage solution.

Contacting Spacesaver to arrange a free, no-obligation space assessment is the first step toward looking at mobile shelving from a different angle while creating a facility that better serves you and your staff.
