LEVPRO

RAIL-LESS MOBILE STORAGE SYSTEM

Property and Evidence Storage: More Space, More Efficient

Maintaining a secure chain of custody is key to maintaining the integrity of cases in your community – and the key to maintaining your chain of custody is an organized, well-thought-out evidence storage system. But if your evidence room is already overflowing and funding for a new facility is years away, it can feel impossible to keep your property and evidence room compliant with best practices.

HOW IT WORKS

By suspending shelves on an overhead track, the aisles of the **LEVPRO** system compact to greatly increase the capacity of your property and evidence storage. With a variety of accessories like dividers and bins, each box, bag, and bulky item can be easily organized and retrieved when needed. **LEVPRO** is installed directly under pallet racking to give you additional overhead space. We can also provide other solutions like evidence deposit lockers to give your facility a fully secured chain of custody. Plus, the system's floorless design means it installs with minimal disruption and can be relocated if a new facility becomes a reality.

Picture Traditional Static Shelving...

Spin 90 Degrees...

Add more shelving sections, now you have a **LEVPRO** system that compacts by sliding on our patent pending suspended overhead trolley and track system.

SAVE SPACE

- Gain up to 100% capacity over static shelving
- Turn wasted space into productive storage areas
- Adjust shelving heights to maximize space

IMPROVE EFFICIENCY

- Keep evidence and property organized
- Respond quickly to requests
- Quit wasting time trying to find items

CONFIGURE SYSTEMS

- Use modular support rail, plastic bins, back panel, and a variety of other accessories
- Add more **LEVPRO** units or relocate system when needed
- Install units around existing furniture, columns, or other obstacles

SPECIFICATIONS

Each standard **LEVPRO** kit includes pallet rack uprights, beams with tracks, trolleys, steel shelving units with handles, wire decking, and LED shop light(s). **LEVPRO** is offered in a variety of sizes, from 8'-12' spans, 7'-8' heights, and 3'-4' depths. Your local Spacesaver consultant can provide more detailed information.
