

# INFO SHEET

## CAMPUS POLICE DEPARTMENT STORAGE

We know that keeping your students safe is your top priority, which is why we offer storage solutions tailored to your specific needs and budget. Just because you're a smaller police department doesn't mean that you don't face many of the same evidence and gear storage challenges as larger agencies. Officers don't have time to dig for their gear and equipment; when you're needed, you're needed now. Having the equipment you need easily accessible can be a lifesaver - literally.

### EVIDENCE STORAGE

Evidence is always fluctuating within campus police departments. That's why it's important to have secure, durable temporary storage in a variety of sizes to be able to store any type of evidence, large or small.

The Narcotics Evidence Locker (NEL) and the Weapons Evidence Locker (WEL) were developed specifically for the challenges that come with storing drug and firearm evidence for the long-term.

### NARCOTICS EVIDENCE LOCKERS (NEL)

Tamper-proof steel construction keeps narcotics evidence secure while adjustable baffles and optional ventilation integration help reduce the odors associated with drug storage.

### WEAPONS EVIDENCE LOCKERS (WEL)

Securely store a variety of sizes of firearms in one locker with interchangeable accessories that can evolve with your inventory. This is also a great option for storing smaller inventories of officer firearms.

### FREESTYLE LOCKERS

FreeStyle Lockers pair the safety and durability of a weapons cabinet with an unassuming design—creating a locker that offers the protection of a gun cabinet, but doesn't look like one. Perfect for stadiums, event centers, and buildings at heightened risk for security challenges.

## PERSONAL STORAGE LOCKER

Give your officers a boost in morale and readiness with customizable Personal Storage Lockers.

- Customizable interior accessories.
- Body armor trays and boot trays for protecting gear.
- Electrical outlets to keep devices charged inside lockers.
- Optional built-in or slide-out benches to optimize space.
- Louvers for ventilation to help dry your gear.

Some existing lockers can even be retrofitted with a bench drawer to add extra storage and comfort within your budget.

## TACTICAL & RIOT GEAR STORAGE

If your campus police department has tactical gear in case of emergencies, you know that it needs to be in the right location and easy to grab – with no searching or retrieving involved. At the same time, SWAT gear is among the most expensive at a police department, so you want to make sure it's protected from damage, loss, or even theft.

Choose from cubbies, gear lockers, or even doorless wardrobe-style lockers to protect bulky, valuable gear.
