Garment Carousel

The Vidir Garment Carousel is a motorized vertical carousel designed for high density storage and retrieval of garments. The semi/fully automated storage system maximizes overhead space to save you up to 80% of your floor space with every garment accessible at the touch of a button. The system can integrate with existing ERP and WMS systems or function as its own warehouse location. Additional overhead bridge, multi-tower, and built to fit specifications guarantee maximum utilization of available space.

- Up to 4,052 garments can be stored on a single standard carousel
- Can operate and track inventory as an individual database or integrate with enterprise level ERP systems
- Semi or fully automated systems available
- Works with barcode and RFID systems
- Saves up to 80% of your floor space
- Ergonomic design increases workplace safety and prevents back injuries
- Multi-Tower and bridge options available

Safe Handling • Easy Access • Maximum Storage • Fast Retrieval • Small Footprint
