Cantilever Rack System for Parachutes

Military Parachute Storage: The Ultimate in Efficiency and Security.

When you trust your life to your parachute you can trust Cantilever Rack for Parachutes by Spacesaver to store it safely and securely. The durable and user-friendly Cantilever Rack optimally stores parachutes out of harm's way. Combine Cantilever Rack with a Spacesaver Eclipse® Powered System to achieve the best in asset protection, use of floor space, and security.

FEATURES:

- Made in the U.S.A
- Heavy-duty welded steel construction
- Single and double face units available
- Sizes up to 136"H x 48"W x 30"D single sided or 57"D double sided. Length of rack determined by room layout.
- Adjustable parachute arms accommodate different size bags for changing needs
- Adjustable on 6" increments vertically
- Parachute arm designed to be moved horizontally along horizontal supports
- Parachute arms are securely held in place by a thumb nut, eliminating the need to use tools
- All materials used in the fabrication of the Parachute Rack are "non-reactive", preventing degradation of the stored materials
- All corners are rounded and all exposed edges are meticulously deburred to prevent snagging or puncturing of stored materials
- Canopy tops and shelves are interchangeable
- Durable powder coat paint – many standard colors available
- Organized storage solution provides optimum storage density and efficiency
- For special size requests, contact your local Spacesaver Distributor

Parachute Rack & Mobile storage systems

Parachute Rack and Spacesaver mobile storage systems are designed to work together. The Parachute Rack sections easily mount to the top of the mobile carriages to work as an integrated storage system. Optimize the use of your valuable floor space by compacting your storage into a smaller footprint.

ECLIPSE POWERED MOBILE SYSTEM

Eliminate the need for space-wasting wire cages by securing your Parachute Rack and Eclipse system with the Spacesaver Touchpad with Display and Audit Trail.

BENEFITS:

- Helps protect sensitive materials from access by unauthorized persons.
- Enhances workplace efficiency with its easy-to-read display, available in multiple languages.
- Assists in maintaining personnel accountability by providing a clear record (audit trail) of access with the use of its own easy-to-use PC interface software.
- PIN-code and audit trail memory retention during a power interruption save bothersome reprogramming as well as maintains controlled access when power resumes.
- Adapts easily to your facility's changing security and use requirements with its versatility and multifunctional capability.

STORE MORE IN LESS SPACE

Traditional Shelving:
WASTES SPACE.

Mobile Shelving:
INCREASES SPACE.

Mobile Shelving:
DOUBLES CAPACITY.
