

INFO SHEET

Security. Transportability. Visibility. Readiness.

From the proven, military-certified Universal Weapons Rack® for weapons storage and optics to space-saving high-density mobile storage systems, Spacesaver Corporation provides an unparalleled line of solutions to ensure military bases meet security and accountability directives. Use UWR in tandem with high-density mobile storage and achieve the ultimate in security, transportability, visibility, and readiness.

UNIVERSAL WEAPONS RACK (UWR®)

UWR®
STORAGE SYSTEM

When security and transportability are critical in the same product solution, Spacesaver's UWR platform delivers. Originally designed for, and in conjunction with, the military, the UWR provides secure storage and durable construction to take the abuse of deployment and in theater use.

- Diamond perforated door and side mesh allow for quick visible inventory without breaching security protocols
- Welded, heavy gauge cabinets designed to take punishing treatment during deployment and while in theater

An 83.75 inch tall cabinet is also available. The taller design allows for added flexibility in your arms rooms without compromising security. The intermediate shelf allows for two-tier storage of

M4s, M16s, MK16s and MK17s.

HIGH DENSITY MOBILE STORAGE

Compact mobile storage offers twice the capacity of conventional storage. Improve organization of stored gear and equipment and increase retrieval speed of stored items. Spacesaver has the ability to store nearly anything in our mobile systems while keeping you safe and your supplies secure.

ACTIVRAC®

For loads that range from 7,000, to 30,000 lbs ActivRAC® Mobile Storage meets the most demanding warehouse requirements and most models install on existing floors.
