

WORKPLACE

SMART LOCKERS

In today's fast-paced and ever-changing work environment, efficiency and flexibility are crucial. Our Vecos-powered smart lockers are designed to transform your workplace, offering **smart storage solutions** that save space while enhancing productivity and workflow.

SMART LOCKERS:

SAVE TIME

Free up your people. With remote and automated management, facility managers can save up to 90% of locker management time when compared to traditional lockers.

SAVE SPACE

Why pay for air? Dynamic smart lockers mean no more permanent assignments. That means 35% *fewer* lockers and 35% *more* floor space.

SAVE SANITY

Set it and forget it. Assign rules by employee type and let the software manage the lockers. Automatic software updates allow administrators to focus their time and efforts on other building management requirements.

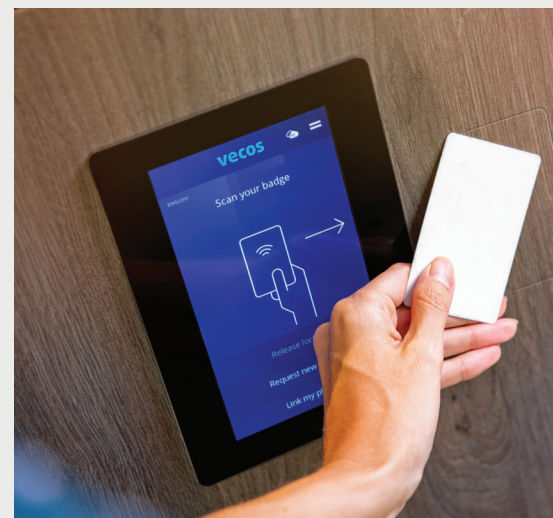

Dynamic workplaces aren't a one-size-fits-all scenario, and our smart lockers reflect that. Whether it's maximizing day-to-day efficiency for your employees, offering secure storage for visitors, or managing parcel deliveries, our solutions are tailored to meet the diverse requirements of your workplace.

EMPLOYEE DAY LOCKERS

Your regulars deserve a designated locker for everyday essentials. And for the nomadic souls navigating flexible workspaces, our lockers offer adaptable security.

- » Choose **fixed-use** employee day lockers for your regulars. Select how long an employee can have an assigned locker or make it indefinite.
- » **Flexible-use** day lockers are great for hybrid or collaborative offices. Give your employees access to the locker they want, where and when they want it.
- » **Mix and Match** both fixed and flexible-use lockers. Take a test-and-learn approach and use data insights to make the most of your space.

EMPLOYEE PERSONAL LOCKERS

Ditch the daily desk grind. Personal lockers empower your people with pure flexibility, allowing them to customize the office on their terms without worrying about their stuff.

- » **Cultivate a modern, clutter-free** workspace, giving employees a safe place to store coats, bags and other personal belongings.
- » **Streamline in-office efficiency** with reservable smart lockers, providing a seamless experience for your employees.
- » **Show your commitment** to your employees by investing in state-of-the-art smart storage that effortlessly enhances their daily experience.

TEAM LOCKERS

In today's workplace, creativity flows beyond conventional boundaries. Smart team lockers empower your team with shared, secure and trackable access to key assets.

- » **Safeguard vital assets**, promoting traceability and accountability for data, devices and documents in our smart team locker system.
- » **Foster collaboration** effortlessly by providing a locker system that encourages teamwork, regardless of physical location or schedules.
- » **Save valuable time** for team members and minimize the risk of lost or misplaced items.

PARCEL LOCKERS

Show your people you've got their back with our smart parcel lockers. Say goodbye to delivery stress and hello to boosted productivity.

- » **Keep packages and files secure**, no matter where your team works, creating a reliable and protected workflow.
- » **Lighten your workplace managers' load** and make the most of your space with an efficient smart locker system.
- » **Stay in the loop** with a clear audit trail, providing detailed records and valuable insights into package delivery or other parcel exchanges with your organization.

VISITOR LOCKERS

First impressions matter, even in the corporate jungle. Our smart visitor lockers provide VIP treatment for everyone who walks through your doors.

- » **Leave a lasting impression** on visitors by offering smart secure lockers for their personal belongings.
- » **Safeguard your workspace** and protect against unauthorized visitors with a high-tech, integrated visitor management system.
- » **Streamline locker turnover** and optimize efficiency through usage-based data, saving both time and money.

GYM LOCKERS

Boost your team's health and well-being with our savvy smart gym lockers. These lockers are here to help your team break a sweat without breaking a sweat about their belongings.

- » Give employees and visitors a secure place to **store their belongings while they sweat** – demonstrating your commitment to guest and employee well-being.
- » **Customize your lockers** so they match your standards. Block lockers off for a quick clean, or change access rules as needed.
- » **Provide around-the-clock access** – perfect for employees or visitors who choose to exercise before or after the 9-5.

IT TECH LOCKERS

Amp up your tech team's prowess with our IT Tech Lockers. Empower your remote warriors with IT assets, streamline the exchange of spare parts and effortlessly manage device support.

- » **Ensure secure distribution** and exchange of IT assets with traceability and accountability, minimizing the risk of lost or misplaced items.
- » **Streamline IT asset exchange** with collection lockers, providing a consistent, secure storage environment.
- » **Enhance team efficiency** with flexible tech lockers available on demand, freeing your IT team to focus on their work instead of waiting for repair requests.

OUR PROCESS

Over the past 50 years, we have learned a lot about taking a project from idea to completion...and beyond. Along the way, we created (and refined) a process that helps us solve all sorts of space and storage problems. That process involves four steps: **Survey and Analysis, Planning and Design, Installation** and **Ongoing Support**.

From employee day lockers to IT tech solutions, our smart lockers offer **state-of-the-art storage** that seamlessly blends practicality with creativity, empowering your workplace to thrive.
