

WEAPON SECURITY

WEAPON ACCESS

QVRT

by Vapensystems Inc.

The QVR gun safes series are designed to securely store weapon(s) while providing fast access in case of an emergency. Due to the compact footprint, the QVRT can be located anywhere a weapon may be needed in case of an emergency. The security of the QVRT series is unparalleled due to the patented locking mechanism located in the base of the unit. A biometric keypad allows access in less than 4 seconds.
