

Readiness is the mission

Reduce Footprint
Maximize Space
Prevent Loss

Ready When You Are.

Readiness rises when space works harder. We design for the real conditions of military work: crowded rooms and quick turnarounds with absolutely no margin for error.

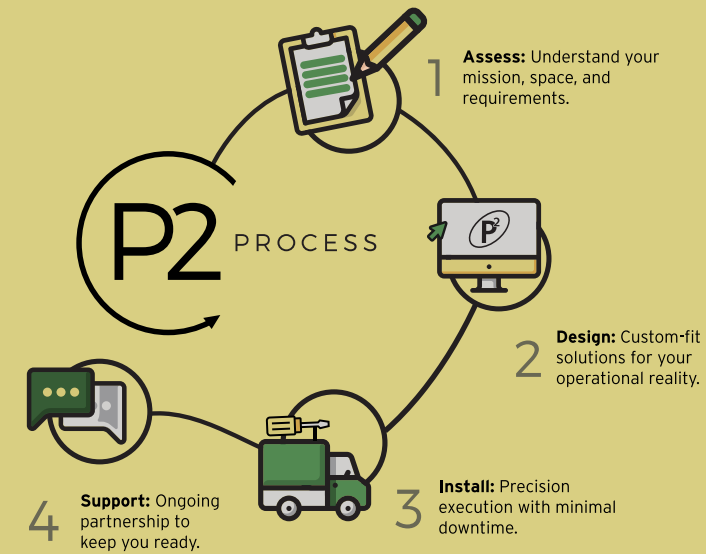

Our Defense solutions **reduce footprint, maximize space, and prevent loss** – the Big 3 behind every mission that needs gear ready, protected, and accounted for.

You can't predict the mission, but you can control the space that keeps it moving. That's where **readiness optimization** starts.

Why Patterson Pope

For us, storage isn't just steel and square footage. It's trust, accountability, and mission assurance. Patterson Pope Defense brings decades of procurement insight, and **our process** is built for operational speed. We assess your needs, design for your mission, install with precision, and stay in the fight with ongoing support.

Bottom Line

What does Patterson Pope Defense mean for your unit?

- » Solutions shaped to your space, your gear, and your operational tempo
- » Systems that flex with mission shifts instead of fighting them
- » A partnership built on sustainment, support, and lasting readiness

AEROSPACE

Readiness at Every Altitude.

When aircraft are grounded, missions stall. We deliver storage solutions built for aviation and ground crews, keeping tools, gear, and parts secure and within reach. Faster turns. Fewer losses. Readiness at full throttle.

Organized Ops for Airborne Readiness

Ground support is mission support. These are the spaces that make flight-ready happen.

- » Administrative/Classroom/Meeting Areas
- » Aviation Ground Support Equipment
- » Fabrication & Repairs
- » Safety & Training
- » Stock & Supply Storage
- » Tool & Inventory Management

ARMORIES & FORCE PROTECTION

Protect the Base. Secure the Gear.

Security Forces keep the base safe, and their storage should do the same. From gear and weapons to evidence and training aids, we deliver systems that support mission readiness, accountability, and rapid response.

Ready when it has to be

Storage built for fast response, full control, and the realities of force protection duty.

- » Administrative/Classroom/Meeting Areas
- » Armory & Tactical Gear Storage
- » Command & Control Workspaces
- » Evidence Management
- » Equipment Staging
- » Personnel Storage
- » Training & Simulation Equipment Storage

BASE DISTRIBUTION CENTERS

Where Readiness Gets Packed, Shipped, and Signed For.

Base distribution centers are where operations begin. From receiving gear to issuing kits, we streamline logistics spaces with solutions that secure assets, reduce delays, and boost efficiency across every supply and personnel touchpoint.

Distro doesn't happen in one room. These are the spaces where base logistics stay locked in.

- » Administrative/Classroom/Meeting Areas
- » Facility & Equipment Operation
- » Inventory Management
- » Logistics Readiness Squadron
- » Personal Storage
- » Picking & Packing
- » Shipping & Receiving

CIVIL ENGINEERING / DPW / CONSTRUCTION

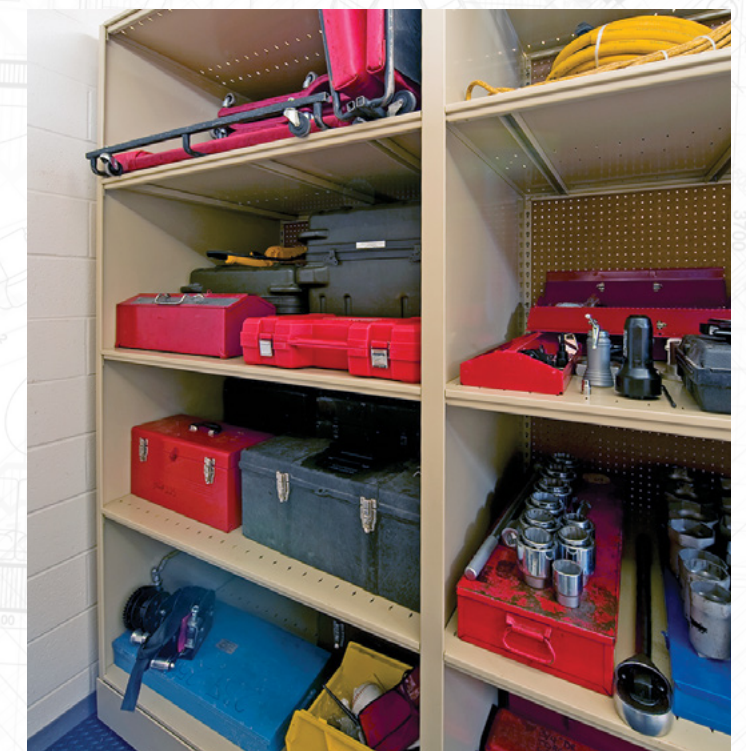

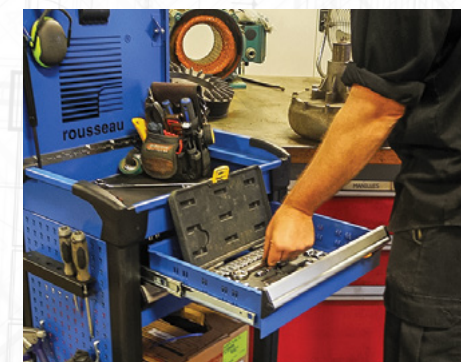

Where the Base Gets Built.

Civil Engineering and DPW units are the backbone of base infrastructure. Whether it's contract crews maintaining utilities or construction units handling vertical builds, there's no room for delay. Our storage systems keep tools, gear, and safety equipment organized and ready, so the mission keeps running rain or shine.

Organized zones for the teams that build, fix, and maintain the base.

- » Administrative/Classroom/Meeting Areas
- » Department of Public Works
- » Emergency Response & Readiness
- » Infrastructure Maintenance & Repair
- » Tools & Materials Management
- » Training, Safety, & Compliance

COMMUNICATIONS & CYBER

Secure the Signal. Protect the Data.

When the mission depends on secure networks and clear comms, there's no room for disorganization. We help IT and tactical teams protect high-value assets like radios, servers, laptops, and sensitive data so they're always mission-ready and protected. From SCIFs to server rooms, we bring order to the backbone of the modern battlefield.

The gear, zones, and storage that keep your network live and your mission connected.

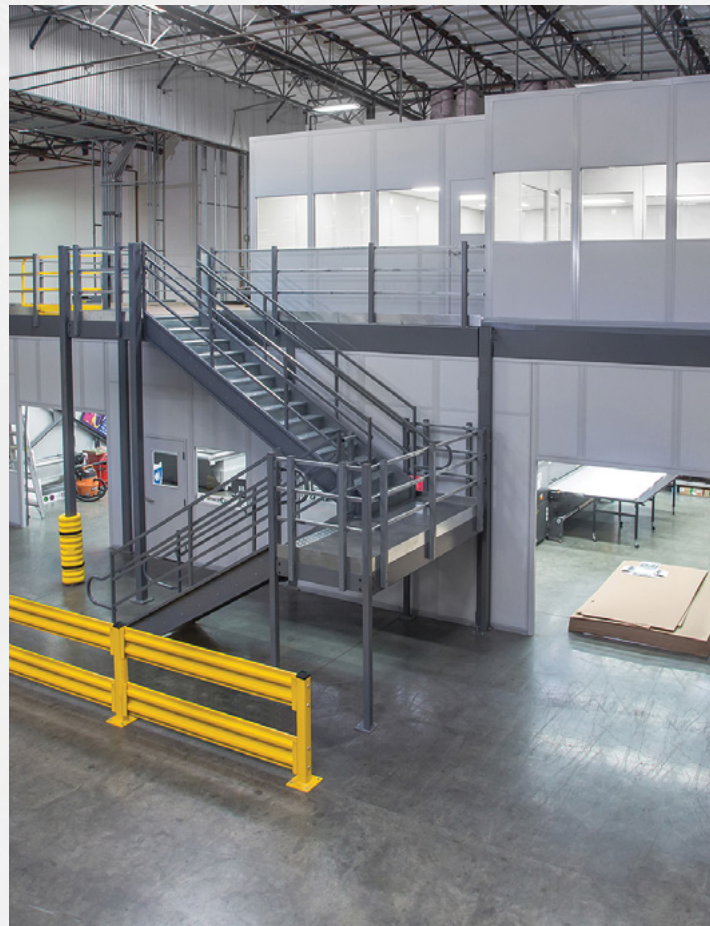

- » Administrative/Classroom/Meeting Areas
- » Equipment Maintenance
- » Radio & Tactical Comms Support
- » SCIF & Secure Facility Support
- » Sensitive Item & Server Storage

CWMD / ENVIRONMENTAL SAFETY

Containment, Control, and Confidence.

Countering weapons of mass destruction, handling hazardous materials, and locking down explosive assets: this is storage with zero room for error. Whether you're outfitting a flammable materials room, an environmental testing bay, or a weapons containment facility, our solutions help bring order, safety, and control to the most sensitive spaces on base.

Store It Right. Handle With Precision.

Secure, compliant storage for high-stakes gear, hazardous materials, and anything that can't go wrong.

- » Administrative/Classroom/Meeting Areas
- » Detection & Identification Equipment Storage
- » Environmental Control & Testing
- » Equipment Maintenance & Calibration
- » HAZMAT & Material Handling
- » Weapons & Explosives Containment

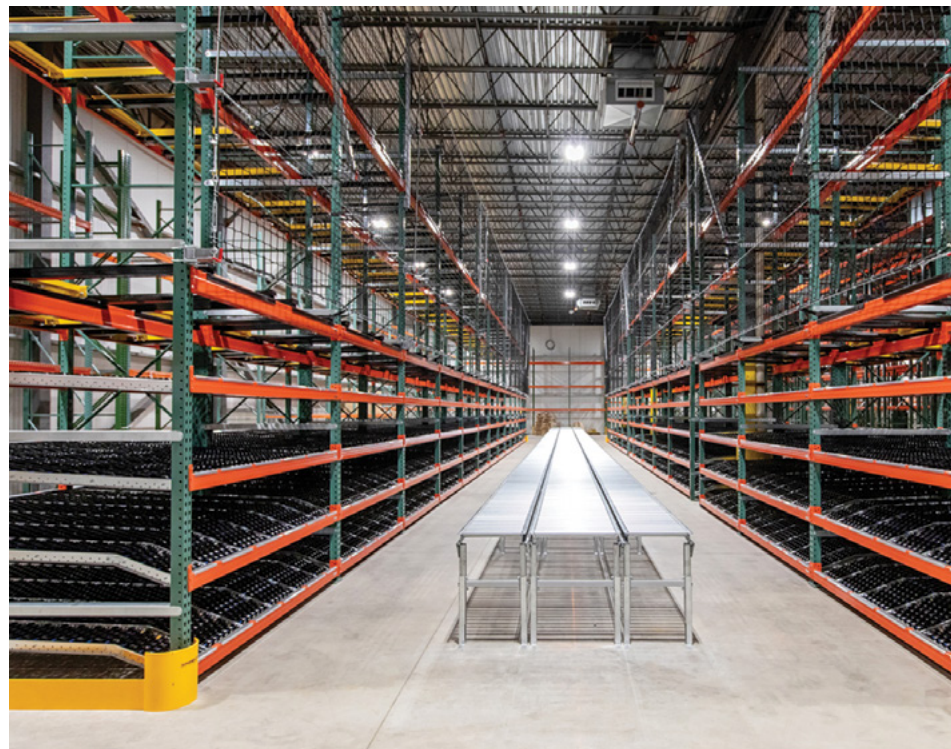

DINING FACILITIES

Where Every Ration Has a Place.

Troops need fuel, and dining facilities have to deliver every day, without fail. From cold storage to clean-up stations, DFACs rely on systems that support flow, safety, and efficiency. Our solutions bring structure to the mess hall and order to the back-of-house.

Food service doesn't stop. Store the supplies, gear, and goods that keep meals on schedule.

- » Cold & Frozen Food Storage
- » Dining Halls & Seating Areas
- » Dry Goods Storage
- » Equipment & Utensil Storage
- » HAZMAT & Cleaning Supplies
- » Meal Tray & Dish Handling
- » Personnel & Staff Support
- » Shipping & Receiving

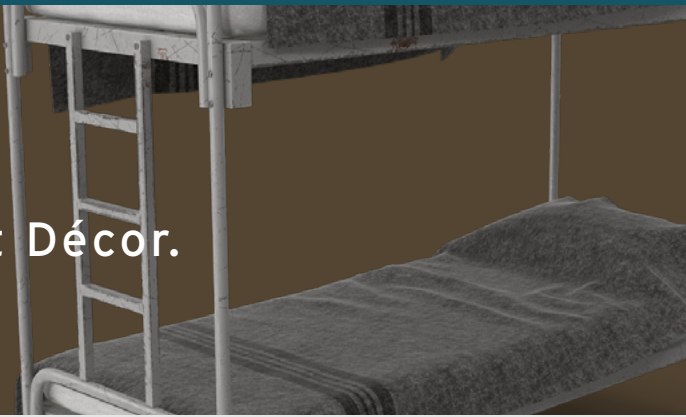

FURNITURE

Furniture Built for Duty, Not Just Décor.

Durability matters. So does design. Our furniture solutions create smart, flexible environments across every corner of the base, whether you're setting up classrooms, upgrading dorms, or building better workspaces for today's connected operations.

From briefing rooms to barracks, outfit every corner of the base with furniture that holds up.

- » Auditorium & Lecture Halls
- » Barracks Furniture
- » Chairs
- » Desks
- » Files & Storage
- » Tables
- » Walls & Pods
- » Workspace Systems
- » Accessories

HEALTHCARE & MEDLOGS

Care That's Ready for Anything.

Military healthcare never hits pause. From surgical tools to sterile storage, our healthcare storage systems help streamline workflows, minimize risk, and keep medical teams mission-ready. Whether it's bedside or back-end logistics, we bring fewer bottlenecks and faster care to every inch.

Built for the pressure, precision, and pace of military medicine – wherever the care happens.

- » Administrative/Classroom/Meeting Areas
- » Clinics
- » Equipment Device Storage
- » MEDLOG Warehouse & Distribution
- » Nurse Stations
- » Operating Rooms
- » Pharmacies
- » Records & Information Management
- » Sterile Processing & Clean Rooms

LIBRARIES & MUSEUMS

The Right Storage for Rare Things.

Storage supports the mission, even when the mission is preservation. Collections grow. Staff rotates. Exhibits change. From rare books to rotating exhibits, we design systems that reduce clutter, protect collections, and keep you ready for the next donation or deep dive.

**Organized to Protect.
Built to Preserve.**

These are the zones where order supports access, and access supports the mission.

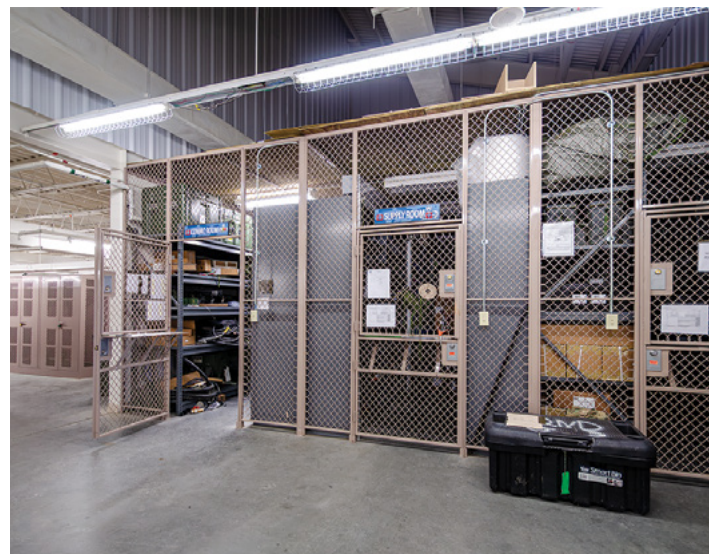

- » Administrative/Classroom/Meeting Areas
- » Archives & Special Collections Storage
- » Artifact & Exhibit Storage
- » Collections Processing & Cataloging Workspaces
- » General
- » IT Equipment Storage
- » Shipping & Receiving

LOGISTICS / SUPPLY CHAIN MANAGEMENT

Built for the Supply Side of Readiness.

When readiness hinges on logistics, there's no room for slowdowns. We design storage systems that keep supply chains responsive, streamlining inventory, accelerating deployment, and locking down mission-critical gear from dock to destination.

Where Gear Gets Moving

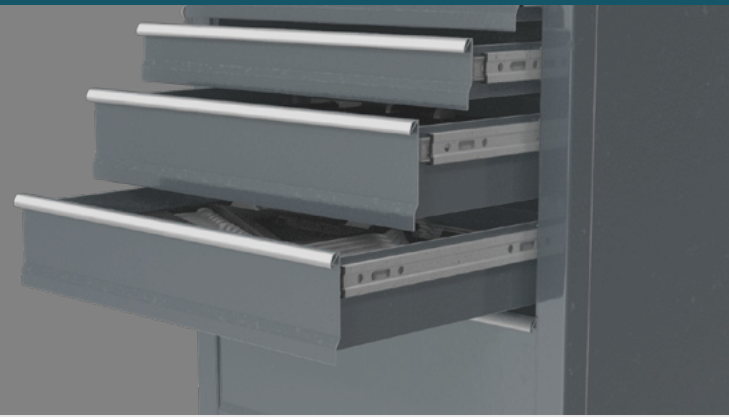

Every link in the chain matters. These zones keep the supply side moving.

- » Administrative/Classroom/Meeting Areas
- » Customer Service & Issue Counters
- » HAZMAT
- » Inventory Management
- » Kitting & Packaging
- » Mobility Kit Storage
- » Shipping & Receiving
- » Weapons Storage

MAINTENANCE & SUSTAINMENT

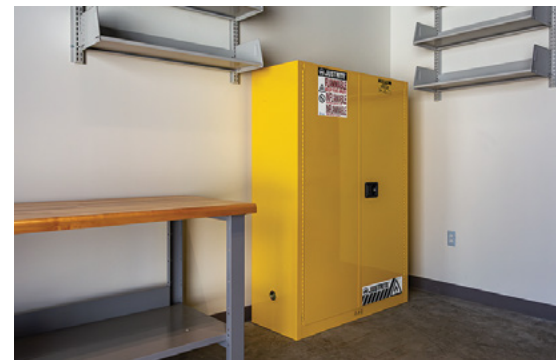

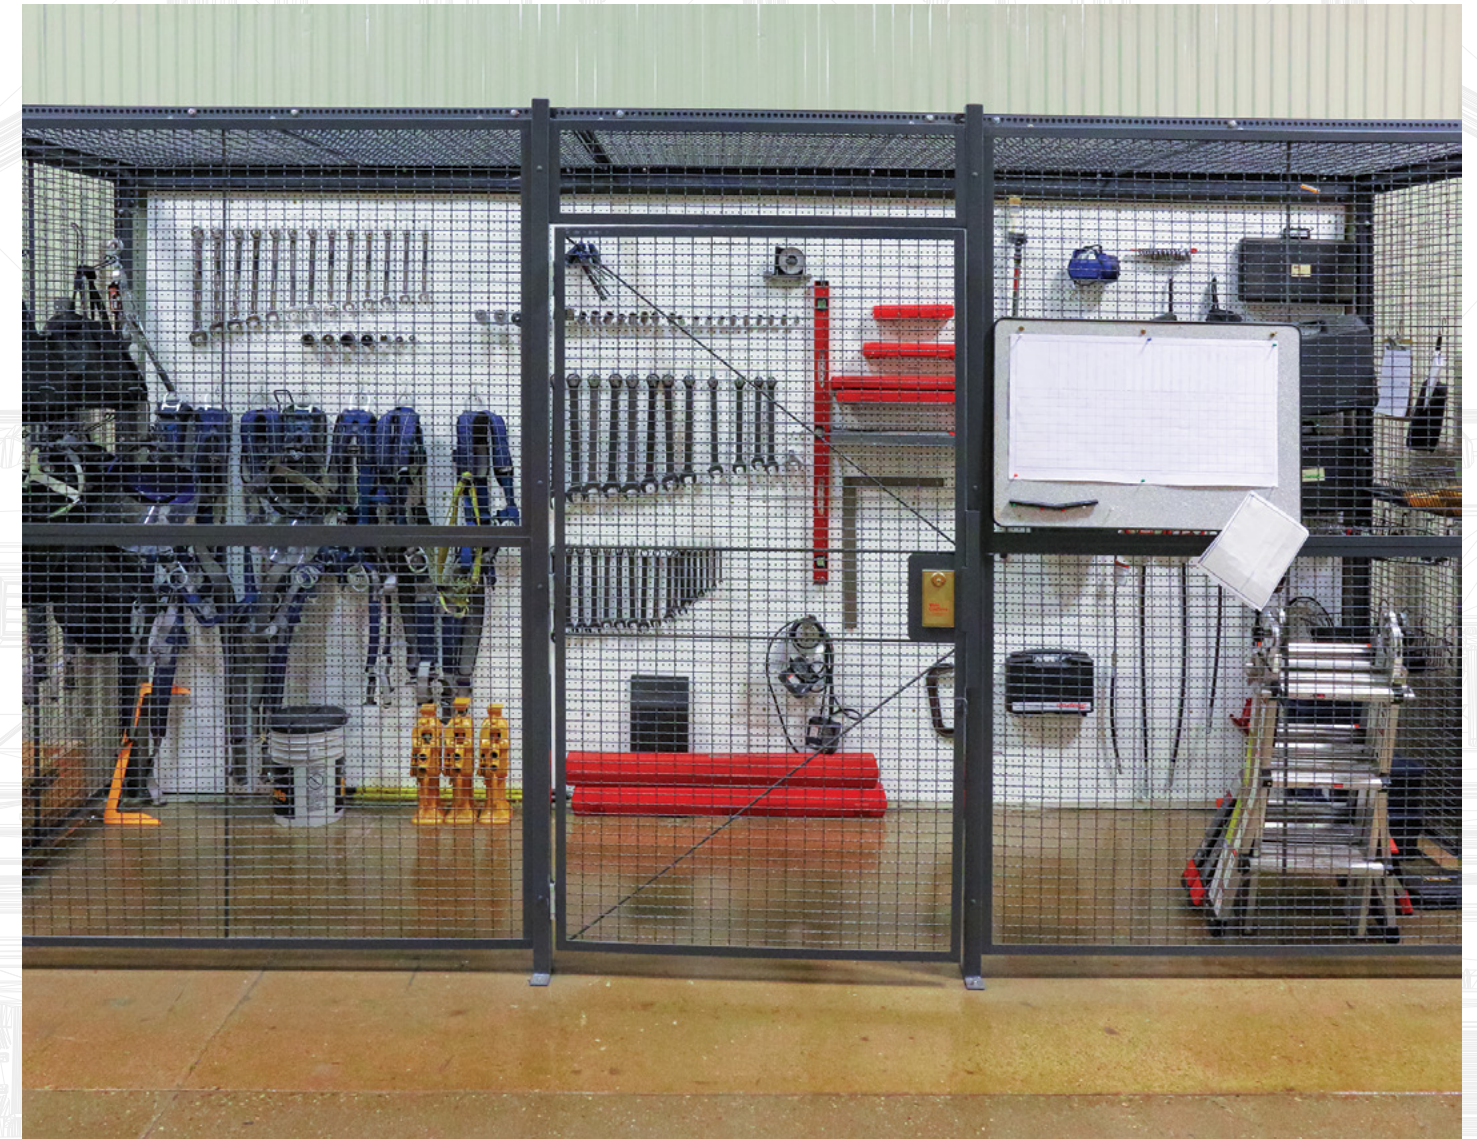

Where Readiness Gets Rebuilt.

Maintenance is the backbone of readiness. Whether it's a tire change, parts issue, or battery swap, our storage systems keep tools protected, workflows tight, and crews moving fast. We build storage that supports maintenance teams under pressure – because when the job is critical, your setup better be bulletproof.

Tools, parts, and PPE stay ready for anything in the spaces that keep readiness running.

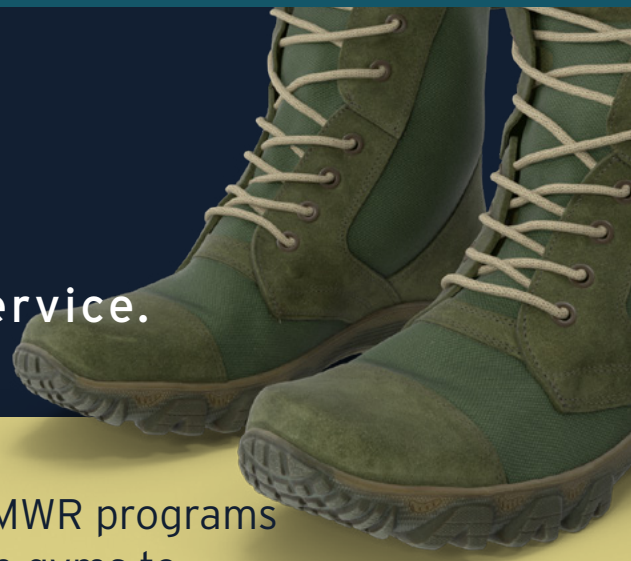

- » Administrative/Classroom/Meeting Areas
- » Bulk Fluid & Lubricant Storage
- » Diagnostic & Technical Workstations
- » Hazardous Materials & Battery Storage
- » Heavy Equipment & Parts Storage
- » Parts Issue & Customer Service
- » Personal Gear & Locker Storage
- » Tool Cribs
- » Vehicle Keys, Records & Asset Control

MORALE, WELLNESS & RECREATION

Storage for the Everyday Side of Service.

Mission readiness starts with a little normalcy. MWR programs keep the base running beyond the mission, from gyms to childcare to outdoor rec. We deliver the storage that supports it all, organizing the everyday gear that keeps life on base just a bit more livable.

Where Recreation Meets Readiness

Where day-to-day gear lives. Fitness, childcare, and rec storage that keeps morale mission-aligned.

- » Administrative/Classroom/Meeting Areas
- » Athletic & Fitness Equipment
- » Arts & Crafts Areas
- » Child & Youth Program Activity Zones
- » Locker Rooms & Personal Belongings Storage
- » Outdoor Recreation Equipment Storage

PUBLIC AFFAIRS

Storage That Hits the Right Angle.

When Public Affairs teams go to work, the whole world watches. From combat camera units to recruiting offices, their gear has to be organized, protected, and ready to roll. We design storage that supports the mission behind the mission, whether that's capturing content or keeping the story straight.

Behind every mission photo is a gear setup built for access, protection, and portability.

- » Administrative/Classroom/Meeting Areas
- » Audio/Visual Equipment Storage
- » Camera & Media Gear Checkout Stations
- » Digital Editing & Multimedia Workstations
- » Event Display Storage
- » File Storage
- » Lockers & Personal Storage

READINESS

Always Ready. Always Accountable.

Readiness is more than a goal. It's a daily standard. Whether you're getting up new recruits or managing serialized gear for a combat unit, staying mission-ready starts with having the right storage in place. Our systems support every stage of the cycle, from secure weapons racks to gear issue and turn-in, keeping equipment accounted for, protected, and ready to move.

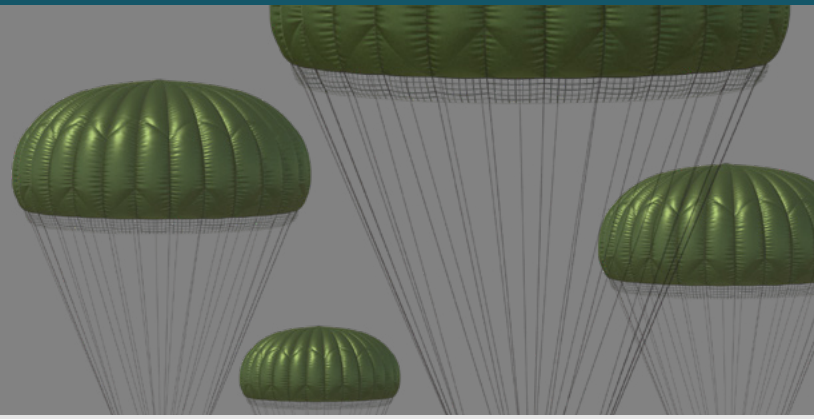

From armory to issue line, secure the systems that power daily readiness and rapid deployment.

- » Armory & Confiscated Weapons
- » Gear Storage
- » Individual Equipment Issue & Turn-In
- » Mobility Bag & Kit Storage
- » PPE & Protective Gear Storage
- » Uniforms & Personal Item Storage

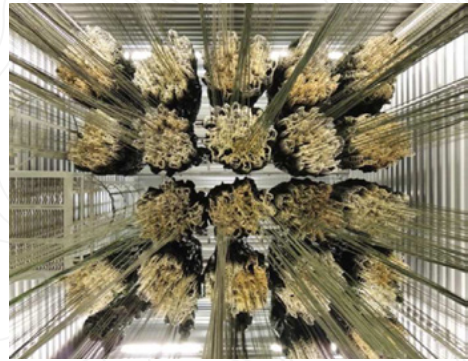

RIGGERS

Where Every Jump Begins.

Parachutes aren't just gear. They're lifelines. And rigger facilities are where those lifelines are packed, inspected, repaired, and stored. From HALO training to active deployment prep, we design storage that keeps every step of the process accountable and mission-ready.

Storage That Supports the Whole Chute Cycle.

Keep parachutes protected, repairs precise, and packing prep seamless with storage tailored to rigger facilities.

- » Administrative/Classroom/Meeting Areas
- » Clean Rooms (O2)
- » Cleaning & Drying
- » Packing & Inspection
- » Receiving & Issue Area
- » Repair & Maintenance
- » Long-Term Storage

Why Readiness Optimization Matters

Issue rooms, supply cages, armories, mobility bays: these are the quiet engines of operational tempo. When these spaces break down, the mission feels it.

Reducing footprint, maximizing space, preventing loss: these aren't conveniences. They're core readiness objectives. They keep gear accounted for, teams synchronized, and commanders confident that what they call for will be prepped, staged, and ready on demand.
